

Playlist Preparation

ListBox Neo-20 is an offline Program schedule creation and playlist editor. The perfect tool for schedule creation and editing with clip trimmer for simple program editing.

Sophisticated editing facilities

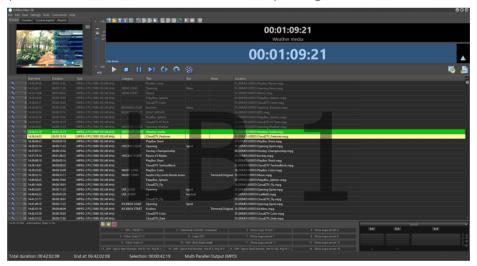

ListBox Neo-20 provides all necessary editing facilities for convenient playlist creation. You will find all expected features such as searching, cut/copy/paste, multi-selection editing, ordering facilities, playlist printing, and last but not least - multi-level undo/redo.

Last-minute clip editing

Simple clip editing tools are provided within the integrated clip trimmer. It allows discarding unnecessary footage, clip splitting and last-minute order reversal within the same clip. Forget about returning the clip back to the editing suite - no need and no time! You can even edit the on-air playlist, AirBox Neo-20 will automatically reload the new playlist on the next event.

Traffic system integration

ListBox Neo-20 imports traffic logs from third-party scheduling and traffic systems. This is achieved by using our universal tabdelimited and comma separated values (CSV) and flat fixed-width text import engine.

Excellent price/performance ratio

ListBox Neo-20 does not require expensive hardware or ultra-fast workstations, thus avoiding unnecessary expenses. All content previewing and editing is done by the software itself.

Straightforward, user-friendly interface

No need to learn from scratch. ListBox Neo-20 user interface looks quite familiar as a standard Windows software. Most users start instantly working with it even without reading the User's Manual.

Playback Preview

The currently edited playlist can be played back on a PC monitor for preview purposes.

ListBox Neo-20 Features & Specifications

- •ListBox Neo-20 is an offline schedule editor, providing sophisticated editing facilities such as text searching, clip copying/pasting, schedule printing and etc.
- •It is the main tool for the Program Editors, enabling them to create and edit schedules many days and weeks in advance.
- •No special server or hardware is required. ListBox Neo-20 runs flawlessly even on a notebook, even with software-based trimming and previewing.
